

Designing for Pedestrians and Cyclists

An introduction to design for non-motorized transportation

May 5, 2010 – 1 to 3 p.m.
Hiway Federal Credit Union
840 Westminster Street, St Paul, MN 55130

The North Central Section of the Institute of Transportation Engineers (NCITE), Bike Walk Twin Cities, and Transit for Livable Communities will host a course to highlight and explore design and maintenance topics and best practices for encouraging non-motorized (walking and cycling) transportation.

At the conclusion of this course, participants should be able to:

- 1) Understand the specific characteristics and needs of pedestrians and cyclists as components of traffic.
- 2) Describe emerging and best practices for non-motorized transportation based on US and European examples.
- 3) Understand Federal and State guidance applying to pedestrians and cyclists, including Mn/DOT guidelines, FHWA, the new MUTCD.
- 4) Identify potential sources for funding pedestrian and bicycle improvements.

This course will be presented by

Antonio M. Rosell, P.E.

MURP, Director, Community Design Group, LLC, Minneapolis, MN

This course is estimated to provide 1.5 hours of PDH credit.*

RSVP/registration is required

The cost of attendance for this course will be \$15 for NCITE members and \$20 for non-members to be paid at the door. Snacks and beverages will be provided.

Space for this course is limited. Please contact Paul Morris (pmorris@srfconsulting.com) on or before Wednesday, April 28th to register.
